

Doctoral Workshop at LDIC 2012

February 27, 2012

The Doctoral Workshop is a Satellite Event of the 3rd International Conference on Dynamics in Logistics – LDIC 2012 (www.ldic-conference.org). The LDIC is held in conjunction with the new conference „Impact of Virtual, Remote, and Real Logistics Labs” – ImViReLL’12 (imvirell.org).

The Doctoral Workshop addresses PhD students in an early stage of their PhD project. It offers an opportunity to present and to defend the own research topic, the first ideas for a research approach and the first findings. The purpose is to generate impact for the progress and the excellence of the thesis by discussing and reviewing the research proposals and to present the own research in an international context. Thus, a second integral aspect of the Doctoral Workshop is the training of professional presentation skills for science and academia.

The best presentation and the most challenging research topic regarding the focus of the LDIC will be awarded at the LDIC Conference Dinner at the 29th of February.

Organizer
Bremen Research Center
for Dynamics in Logistics
(LogDynamics) at the
University of Bremen

Location
BIBA, rooms 1020-1030
Hochschulring 20
28359 Bremen

Avisors
Dr.-Ing. Ingrid Rügge, IGS
rue@biba.uni-bremen.de
+49 421 218 50 139

Dr.-Ing. Marcus Seifert,
BIBA GmbH - IKAP
sf@biba.uni-bremen.de

Programme

09:00-09:15

Dr.-Ing. Ingrid Rügge, Dr.-Ing. Marcus Seifert
Welcome and get to know each other

09:15-10:15

All participants

Exercise: Individual presentations, 2 minutes per person

10:15-10:45

Dr.-Ing. Marcus Seifert

Training I: „Problem Analysis“ – Introduction into Group Work

10:45-11:00

Coffee break

11:00-11:30

Dr.-Ing. Ingrid Rügge

Training II: How to do a good (self) presentation?

11:30-12:30

Lunch break

12:30-15:00

All participants, with advisors

Workshops: Improvement of the presentations and slides,
based on the trainings

15:00-15:15

Coffee break

15:15-17:15

All participants

Presentations with feedback regarding the lessons learnt

17:15-17:30

Dr.-Ing. Ingrid Rügge, Dr.-Ing. Marcus Seifert

Closing session: Evaluation and feedback
